Manage Orders & Plan Production

with Cropster Commerce

We know!
Managing orders, **calculating roast needs**, and **planning packaging** on roasting day can be challenging and time-consuming, especially during peak season.

Find out how Cropster Commerce allows you to **simplify the process**, **reduce stress** and **minimize mistakes**!

Using Commerce

ROAST WHAT YOU NEED

Include **Roasted Inventory** in your roast day calculations to ensure you roast just what you need to fulfill orders.

MINIMISE MISTAKES

Don't worry about entering the incorrect order in a spreadsheet. With website integration, **orders will be pulled into Commerce**.
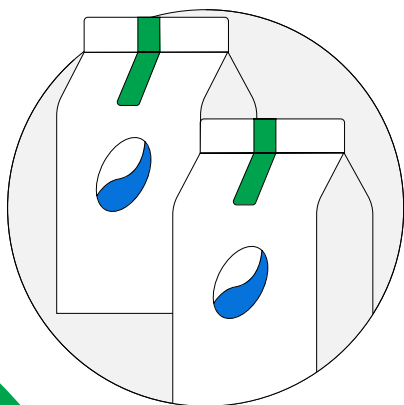

TRACE FROM BEAN TO BAG

Sail through your next FTO audit with the ability to **trace green beans to roast to bag**.

SAVE TIME

No more wasted time compiling orders, filling out spreadsheets and having to double-check.

Getting Started in 4 Single Steps

(1) **Connect your Shopify, WooCommerce, or Beans Store to your Cropster Account.**

(2) **Map your product SKUs to roast curves.**

(3) **Enter your loose and packaged inventory.**

(4) **Get ready to rock your next production day.**
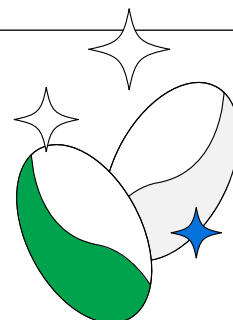

COMMERCE INCLUDES THE FOLLOWING BENEFITS:

- **Webshop integration** with Shopify, WooCommerce and Beans Stores
- **Roasted Inventory Management** (both loose and packaged)
- **Single management point** for all orders (online, email, phone, and fax)
- Calculates **total orders to fulfill**, **roasts to schedule**, and **labels** needed
- Creates **pick list**, **blend list**, **grinding list**, and **package list**

...AS WELL AS ROAST FOUNDATION AND ROAST PROFESSIONAL FEATURES SUCH AS:

- Advanced Green Inventory Management
- Full green grading analysis
- Sample Management

- Roasting Intelligence (RI)
- Roast Goals
- Task Management
- Advanced Cupping Sessions

Monthly Packages start at €299 | $329
